11,846,749	All very good to be honest but the road from OUR railway station to OUR village leaves a lot to be desired. People coming off the train are faced with a badly pot-holed surface and no pavement. In winter - deep snow is left uncleared and folk have to really struggle. Anyone getting off the train expecting a bus, or even taxis - are left to walk a fairly long way - the first part of which is on a disgraceful road surface. If that is the welcome to the village for train travellers, it badly needs improved.	Thursday, May 12th 5:54AM

11,554,042	All are OK except roads & pavements which seem to be the last to be cleared of snow and potholes are left too long before repair	Tuesday, Apr 26th 1:07PM
11,548,684	<p>The recycling provision is utterly atrocious, particularly when you consider we are in a national park. The local authority must improve the recycling provision, but equally importantly, the National Park Authority and Destination Management Organisation should understand that their role is not only about planning and PR, they are there every aspect or the National Park as a destination. Outstanding examples of waste recycling can be found in Scotland, particularly in South Ayrshire, but the Highland region is terrible.</p> <p>Roads are great, we have running water and our toilets flush perfectly well. Higher speed broadband would be good though.</p>	Tuesday, Apr 26th 7:56AM

12,047,783	Do not turn light off completely - encourages crime	Thursday, May 26th 3:43AM
	Street lighting on Inverness road is far too bright they could be dimmed to 12 midnight and turned off to	Thursday, May

12,047,546	Street lighting on in-village roads is far too bright, they could be dimmed to 12 midnight and turned on to 6am. Very little traffic in village between 11pm and 6am.	Monday, May 26th 3:30AM
12,038,697	In Reid Court it is excellent, but some could be turned down or off.	Wednesday, May 25th 3:53PM
12,030,675	Dim them anyway - too bright for what is needed.	Wednesday, May 25th 8:41AM
12,030,165	Leave lights as they are.	Wednesday, May 25th 8:16AM

11,901,659	Please don't turn all the lights off	Tuesday, May 17th 9:55AM
11,874,692	There are certain areas in the village that would benefit from the reduced lighting scheme but roads such as Carr Road would not be the best road to earmark for this.	Saturday, May 14th 5:09PM
11,865,291	I am NOT satisfied (Q13) because too much street lighting. We have excessive street lighting and light pollution. Turn the whole lot off!	Friday, May 13th 12:51PM
11,860,894	none	Friday, May 13th 4:40AM
11,855,596	It can be very dark without any lights and dangerous for areas without pavements	Thursday, May 12th 5:39PM
11,846,063	A lot of money could be saved by implementing all three of the above. It would still leave enough lighting for safety. All street lights could be off between 12 & 6am with alternate street lights off between dusk and 12 mid night and those left on at those times could be dimmed	Thursday, May 12th 4:41AM
11,845,894	None of the above, I think the Highland Council would be better to look at saving money by not spending millions of pounds on building a new stretch of road on the A9 that cannot be used because it was not designed correctly. The person responsible for that colossal waste of money should be held to account rather than turning a few bulbs off.	Thursday, May 12th 4:21AM
11,834,124	I think this is a good idea. I live in the centre of the village and it is very well lit. Between 12-6 dimming or turning off lights would be safe enough	Wednesday, May 11th 9:10AM
11,832,786	Station and Carr Road can be dark in places which can be a problem with no pavements if lights would be turned off	Wednesday, May 11th 7:36AM

11,832,390	Difficult, would depend on the street	Wednesday, May 11th 7:26AM
11,822,341	Overall happy to live here, good community, reasonable access to resources, would not be happy if snow gates are installed at Slochd.	Tuesday, May 10th 3:46PM
11,722,945	I don't see the need for lights to be on all night beyond the Station Bridge on Station Road	Monday, May 9th 7:49AM
11,722,061	Good idea	Monday, May 9th 7:34AM
11,708,581	I always feel safe walking home in the dark but a trial would need to be carried out of any changes. You would need to get used to the idea of a darker village. Are there many folk about between 1 and 6 am? What about security. We don't want to invite vandals or burglars. Maybe you would have to give free security lighting to older people's homes who didn't yet have it.	Sunday, May 8th 9:48AM
11,692,542	either of the above	Friday, May 6th 10:28AM
11,691,820	More street lighting exists than is required	Friday, May 6th 9:33AM

11,676,598	Lights off between 1 - 6am to allow people to leave pub and get home	Thursday, May 5th 8:27AM
11,676,374	Some roads too much lighting e.g. Reed Court. Others are quite dark	Thursday, May 5th 8:05AM
11,676,044	Street lighting away from main road not important - encourage use of torches, bike lights etc	Thursday, May 5th 7:32AM
11,587,334	Less "winter lights" on trees / lamposts would save money	Thursday, Apr 28th 9:58AM
11,586,661	Too dangerous for village to be left in dark	Thursday, Apr 28th 9:26AM
11,575,564	If street lights were switched of the journey home from the pub would be a bit scary!	Wednesday, Apr 27th 3:42PM
11,554,042	Any business or organisation that causes people to be out after midnight should pay for the lighting i.e late licences at pub or village hall should pick up the entire lighting bill.	Tuesday, Apr 26th 1:07PM
11,548,684	The street lights are ugly. For such a beautiful village in such a beautiful location, the street lights are not in keeping with the feel of the village. Something more similar to the wooden ones in Aviemore would be more appropriate. With regard to the cost savings, better light design to reduce the amount of light pollution, by directing more of the light downwards reduces the need for brighter lights and therefore saves money and gives darker skies to enjoy the stars and Aurora.	Tuesday, Apr 26th 7:56AM
11,516,978	difficult one - depends on street perhaps	Sunday, Apr 24th 11:12AM
11,474,784	all lights off between 2am and 7am car park lights reduced and school lights turned off more regularly	Thursday, Apr 21st 7:22PM
11,460,819	Re street lighting. I think that they need to look at each area individually rather than making one decision that will be imposed on all. Some areas of Carrbridge are heavily lit by street lighting, while other areas have very few lights and would suffer by any cut backs/dimming.	Thursday, Apr 21st 8:08AM
